To All Who Assisted In My Care and Treatment:

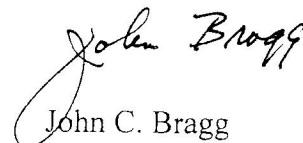

This letter is written to express my utmost appreciation for all of the care and treatment provided by everyone associated with the hospital, including all of the doctors, nurses, assistants, and volunteers.

It was my first experience with Liberty Hospital and I was extremely impressed with the organization and professionalism demonstrated by all. I was informed in advance as to all the procedures, including the pre-surgical testing, the surgery itself, recovery and post-op procedure and all went as advised.

I will not hesitate to share my experience with all of my friends and colleagues and can assure you Liberty Hospital is at the top of my list.

Please feel free to use this letter in any manner you choose and please extend my thanks to all of the staff accordingly.

Respectfully,

John C. Bragg
